Mr. Denas Kinderis

Ever since I was a little child, deconstructing new toys, playing with puzzles and LEGO amazed me. Seeing what makes things work, how to improve them was my drive in middle school. Once I learned to program, I understood, that my imagination can become creation. Making my first program, DB or UI application from scratch hooked me up. "Perfection is not attainable, but if we chase perfection we catch excellence" (V.L.)

Summary

Primary role	Web Applications Development
Specialty	Software development
In profession since	2017
Year of birth	1993
Phone number	+37069172825

Work Experience and Assignments

Tele2 prekyba	**Business client consultant**	Feb 2017 – Now
	Mainly working with data in intranet/SIEBEL/CBS and providing accurate information to our clients. BO tasks with WATCHDOG and CRS systems to monitor and prevent clients for experiencing discomfort, preventing errors from happening, catching cheating clients and blocking IMEI's.	LT/Kaunas
Lithuanian armed forces	**Military service**	Dec 2015 – Sep 2016
	Volunteered to do my service as a sharp shooter in Lithuanian armed forced for the required time. Worked with HIVE and did BO tasks for my commanding officers. After basic training with AR's I chose to seek further knowledge as a sharp shooter. Daily routine involved PE training, sharp shooter skill improvement, working with semi-automated sniper rifle, disguise training. Received honors diploma from my commanding Major upon finishing service.	LT/Kazlų Rūda

UAB Lintel	**Business client consultant**	Feb 2014 – Dec 2015
	Tele2 bought Lintel's man power for online support personnel. Worked with same goals and tasks as a Tele2 employee, only paychecks came from Lintel.	LT/Kaunas
BGL Group	**IT helpline consultant**	Feb 2012 – Apr 2013
	Most of work consisted of supporting and maintaining our database system running smoothly for our clients and providing them consultations on various subjects/malfunctions/guidance's.	UK/Peterborough
Morrisons'deli-kitchen	**Semi chef**	Aug 2011 – Feb 2012
	Worked with ordering and optimizing food supply deliveries, chef's assistant on various tasks – food prep, highest quality main course cooking.	UK/London
